

Food & Beverage (WizStar)

- Removed check number after table in the header of the bar/kitchen/extra receipt
- New button to subtract value from a gift card
- Password for Gift Card: Subtract Value
- This build contains one change to suppress the discarded direct sale receipt.
- Daily Clerk and Daily Shift Reports now print to PDF.
- Custom Product Report now prints a list of selected logs.
- Added updated menu bitmap
- Product Report (Custom) If you select a date range that doesn't have any logs in the custom product sales report, you will get an error that there is no data
- Added PDF output to:
 - Product Report: Default
 - Product Report: Custom)
 - Daily: Clerk
 - Daily: Shift

Pull Tabs (Tab Wizard)

- Gambling Daily Clerk and Daily Shift Reports now print to PDF.
- Add Game Receipt. Added the requested registry setting to control printing of the Add Game Receipt.
- Ohio/PA: The following screens should show a new "ideal merchandise" value rather than the cumulative amount of merchandise payouts entered through the sales screen.
 - Scan Game / Enter Game from Keyboard
 - Adjust Game in Inventory
 - Put Game into Play
 - Adjust Game in Play
 - Adjust Pulled Game
- Added PDF output to:
 - Daily Clerk
 - Daily Shift

System

- Added a CLEAR button to remove single item password
- Added a CLEAR ALL button to remove All passwords
- Added a SHOW/HIDE button to reveal All passwords

Tab Wizard Upgrade Features

❖ Version 2021.1213

- Added MGR password recovery (Tab Wizard use only)
- Added three Admin accounts: MGR, LDR, TWT
 - Default password: MGR, LDR
- Added a new User Account: PDT (Pull Tab Distributor): Distributors are now allowed to access the system using a static password to load games from a USB disk.
 - Default password: PDT

Bugs / Fixes:

- Ohio: Runtime Error 94 “Invalid Use of Null” when adjusting games in inventory. This bug had to do with Merchandise games not having a value if imported.
- Ohio: Runtime Error 3315: Income Disposition report displayed an error when a value was set at 0%
- Product Report: You can now exit the custom report during the date selection screen
- Fixed missing bitmap error on X Report (and other reports) caused from adding the new Food/Beverage “Custom” Product Report
- Password (Exit to Windows): The “Edit All” button in Food/Beverage & Pull Tabs will not include the "Exit to Windows" password. And is made as a separate entity.
